Chesapeake Energy Business Student Success Center

Relationships and personal investments are important to students' success. So, Spears Business students are paired with a major specific professional academic advisor who provides guidance on major exploration and degree requirements, connects students with campus resources, and celebrates in the personal and academic achievements of students during their time in Spears Business.

Eastin Center for Career Readiness

The Eastin Center for Career Readiness provides professional development and career readiness support throughout a student's entire Spears Business experience. Through individual appointments, events, career readiness classes, and our digital career center, we provide opportunities for:

- Meaningful major and career exploration
- Interaction with employers and professionals
- Professional development and skill development
- Guidance for resume building, internship and job searches, interviewing, etc.

Center for Advanced Global Leadership and Engagement

Some of the best learning experiences happen outside the classroom! Study Abroad programs are 1-3 weeks in length, led by Spears Business faculty members and allow students to earn 3-6 credit hours towards their degree. Over \$140,000 in scholarship funding is awarded annually allowing students the opportunity to collaborate with international companies and organizations.
